## **Equity placement completed**

**Red5 has placed US\$50 million in equity in a four times  
oversubscribed offering.**

A syndicate comprising Casimir Capital (lead), Petra Capital and Southern Cross Equities, has placed 300 million shares at 17 cents (Australia) per share to existing institutional shareholders and leading North American and United Kingdom institutions. Of the total, 102 million shares will be issued on 21 October 2010 and 198 million shares will be issued subject to shareholder approval at the Annual General Meeting scheduled for 23 November 2010. The Company originally sought to execute a US\$25 million placement.

The equity raise complements the US\$25 million Sprott Asset Management LP and Sprott Resource Lending Partnership, Toronto, gold prepay financing package.

In expanding the equity raise the Company is following a conservative path to secure the business future, recognising that production is yet to commence and there is now a debt facility in place.

The increased equity raise also allows for a significant expansion in the depth of the share register to one that will be the envy of many much larger companies in the peer group.

**In addition, the increased financial flexibility will allow the  
Company to mount a prolonged exploration programme  
at Mapawa.**
